Los maestros del Carnaval relatan e imaginan un arte ancestral que se cultiva socialmente, y cuyo saber es a la vez la praxis y la teoria. Sus testimonios son un juego de relaciones entre sus cuerpos, la materialidad empleada y la imaginacion: viajan desde el sueño o de las frondas del mito, del inconsciente o la meditacion ecologica, a la dignidad de grandes esculturas efimeras, que la memoria colectiva fija por la permanencia del ritual. Entre la alegria y la angustia, el dia y la noche, ano tras ano, crean voces y seres multiples para la fiesta de la comunidad.
